

SAXO LIVING®

Handmade quality

In recent years Saxo Living has increased our focused approach to the entire production process in order to use the best possible raw materials and to minimize the environmental impact throughout all processes from design to delivery.

The glue we use for our sofas is water based and has a Nordic Swan Ecolabel, the wood is FSC certified and all the foam we use has ISO certificates.

When selecting the fabrics and leather we use, we constantly focus on the best possible products for the customers, as well as being environmentally friendly. Some of our woolen products are recycled wool and many of the fabrics have Oeco-Tex standards.

All hides for our leather sofas are tanned according to the newest methods and standards. No chemicals harmful to either the environment or workers are used in the production process.

Saxo Living has always focus on making sustainable sofas of the highest quality.

Timeless Danish design

Our sofas are designed to last for a long time – quality craftsmanship and upholstered with the best materials. Classic or minimalist style. Create and personalize your model. Choose between leather or thousands of different fabrics and colours.
